

# Report Your Tortoise Sightings!

We need your help reporting desert tortoise observations! We are especially looking for reports from areas outside of the Red Cliffs Desert Reserve, as well as the new 'Zone 6' addition to the Reserve.

## To Submit Your Observations:

1. Download the Smartphone App titled Survey123 for ArcGIS
2. Open your phone camera and view the following QR code:
3. If asked whether you would like to open the program in your web browser or app, select app. You should now have everything you need to begin reporting.
4. Open your app and view "My Surveys," select "Washington County Desert Tortoise Observations," then "Collect."
5. Read the guidelines, complete the survey, and select the check mark at the bottom to submit.

Thank you for contributing to citizen science! Your reports will be valuable for local wildlife management agencies.

If you prefer not to use the app, feel free to text your observations (with a photo) to (435) 705-4431.

For more information, please contact the Red Cliffs Desert Reserve: (435) 301-7430 or [mike.schijf@washco.utah.gov](mailto:mike.schijf@washco.utah.gov).
